

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
<b>2</b>	<b>Background</b>	<b>5</b>
2.1	General characteristics of sea cucumbers . . . . .	5
2.2	Distribution of sea cucumbers . . . . .	6
2.3	Biology of sea cucumbers . . . . .	7
2.3.1	Feeding . . . . .	7
2.3.2	Reproduction . . . . .	8
2.4	Importance of sea cucumbers . . . . .	10
2.5	Fishery for sea cucumbers: past and present status . . . . .	11
2.5.1	East and Southeast Asia . . . . .	12
2.5.2	Pacific region . . . . .	13
2.5.3	Western Indian Ocean and Africa . . . . .	13
2.5.4	Latin America and Caribbean region . . . . .	14
2.5.5	Temperate areas of northern hemisphere . . . . .	14
2.6	Processing and marketing of sea cucumbers . . . . .	15
2.6.1	Processing . . . . .	15
2.6.2	Marketing . . . . .	15
2.7	Assessment and Management of sea cucumber resources . . . . .	16
2.7.1	Resource Assessment . . . . .	16
2.7.2	Resource Management . . . . .	18
<b>3</b>	<b>Abundance and distribution of sea cucumbers</b>	<b>23</b>
3.1	Background . . . . .	23
3.2	Methodology . . . . .	24
3.2.1	Survey area . . . . .	24
3.2.2	Pilot study . . . . .	25

3.2.3	Survey proper . . . . .	26
3.2.4	Size and weight measurements . . . . .	27
3.2.5	Data analysis . . . . .	28
3.3	Results . . . . .	29
3.3.1	Pilot study . . . . .	29
3.3.2	Observed species . . . . .	29
3.3.3	Abundance and spatial distribution . . . . .	31
3.3.4	Distribution in relation to depth and habitat types . . . . .	34
3.3.5	Total Biomass and Maximum Sustainable Yield (MSY) . . . . .	35
3.4	Discussion . . . . .	36
<b>4</b>	<b>Present status of the commercial sea cucumber fishery</b>	<b>41</b>
4.1	Background . . . . .	41
4.2	Methodology . . . . .	42
4.2.1	Data collection . . . . .	42
4.2.2	Data analysis . . . . .	43
4.3	Results . . . . .	45
4.3.1	Fishery . . . . .	45
4.3.2	Total abundance . . . . .	46
4.3.3	Fishing effort, CPUE and total catch . . . . .	47
4.3.4	Length distribution and mean lengths in the commercial catches . . . . .	49
4.3.5	Mortality and price information . . . . .	51
4.3.6	Economics of fisheries . . . . .	52
4.4	Discussion . . . . .	55
<b>5</b>	<b>Habitat preference of two sea cucumbers: <i>Holothuria atra</i> and <i>Holothuria edulis</i></b>	<b>59</b>
5.1	Background . . . . .	59
5.2	Methodology . . . . .	60
5.2.1	Data collection . . . . .	60
5.2.2	Data analysis . . . . .	60
5.3	Results . . . . .	62
5.3.1	Distribution in different habitat . . . . .	62
5.3.2	Generalized additive model . . . . .	62
5.4	Discussion . . . . .	66

<b>6</b>	<b>Reproduction of the commercial sea cucumber <i>Holothuria atra</i></b>	<b>71</b>
6.1	Background . . . . .	71
6.2	Methodology . . . . .	72
6.2.1	Collection of specimens . . . . .	72
6.2.2	Biometric measurements . . . . .	73
6.2.3	Gonad morphology . . . . .	74
6.2.4	Size at first sexual maturity . . . . .	74
6.2.5	Effect of environmental variables . . . . .	74
6.3	Results . . . . .	75
6.3.1	Sex ratio . . . . .	75
6.3.2	Biometric measurements . . . . .	75
6.3.3	Gonad morphology . . . . .	76
6.3.4	Size at first sexual maturity . . . . .	82
6.3.5	Reproductive cycle . . . . .	82
6.3.6	Effect of environmental variables . . . . .	83
6.4	Discussion . . . . .	84
<b>7</b>	<b>Design of marine protected areas for sea cucumbers</b>	<b>89</b>
7.1	Background . . . . .	89
7.2	Methodology . . . . .	91
7.2.1	Model components . . . . .	91
7.2.2	Input parameters to the model . . . . .	93
7.3	Results . . . . .	93
7.4	Discussion . . . . .	98
<b>8</b>	<b>Conclusions and future perspectives</b>	<b>99</b>
