

# Potential for Shrimp Waste Utilization in Sri Lanka.

Content	Page
01. Background	05
02. Production of Shrimp, Lobster, Crabs and Cuttle fish	05
03. Exports of Shrimp, Lobster, Crabs and Cuttle fish	15
04. Sea Food Processing	21
05. Waste from Sea Food Processing Industry	34
06. Quality of Shrimp Waste	34
07. Utilization of Shrimp Waste at present	35
08. Potential for Shrimp Waste Utilization	41
09. Conclusion	49

## List of Tables

Table 01	Export of fish and fishery products during 1980 - 1989 Period (MT)	06
Table 02	Annual exports of shrimp, lobster and other crustaceans and molluscs in Metric Tons (1980 - 89)	07
Table 03	Earnings from sea food exports from Sri Lanka (1980 - 89)	08
Table 04	Prawn, cuttlefish, squids and lobster species commonly found in Sri Lanka	11
Table 05	Production of shrimp, lobster, crabs and cuttlefish from 1980 - 1989. (MT)	12
Table 06	Shrimp exports during 1980 - 1989 period expressed as a percentage of the total production	16
Table 07	Frozen prawns & shrimps - Companywise export performance - 1988	17
Table 08	Exports of Prawns - 1989	18
Table 09	Exports of Prawns/shrimps by destination (1989)	20
Table 10	Lobster-Companywise Export Performance -1988	22
Table 11	Exports of Lobsters - 1989	23
Table 12	Lobster exports during the 1980 - 1989 period expressed as a % of production	24
Table 13	Frozen Crabs - Companywise export performance - 1988	25

List of tables contd.

Table 14	Exports of Crabs - 1989	26
Table 15	Frozen Cuttlefish - Companywise export performance - 1988	27
Table 16	Exports of Cuttlefish - 1989	28
Table 17	List of Sea food exporters & Operational processing units (1989/90)	29
Table 18	The Lobster purchasing/processing Units (1989/90)	30
Table 19	Approximate beach price and export price of prawns in 1986 and 1990	32
Table 20	Beach/Export price of Lobsters in 1990	33
Table 21	Composition of samples of shrimp waste from three processing factories during 1989/90 period	36
Table 22	'Wild' shrimp exports during the 1980-89 Period	41
Table 23	Imports of flours and meals of fish and crustaceans unfit for human consumption (1988)	43
Table 24	Import of sweetened forage, shrimp feed 1988	45
Table 25	Imports of flours and meals of fish and crustaceans unfit for human consumption (1989)	45
Table 26	Import of sweetened forage shrimp feed (Jan. - June 1989)	46
Table 27	Imports of flours and meals of fish and crustaceans unfit for human consumption (Jan. - August) 1990	47

## LIST OF PLATES

Plate 01	-	Prawn species of commercial importance in Sri Lanka	10
Plate 02	-	Lobster species of commercial importance in Sri Lanka	13
Plate 03	-	Lobster species of commercial importance in Sri Lanka	14
Plate 04	-	a) Shrimp waste being cooked in a half-oil barrel using a stove which uses wood shavings	37
		b) Utencils used for cooking shrimp waste	37
Plate 05	-	Sun drying of cooked shrimp waste	38
Plate 06	-	a) Cooked sun dried, Shrimp waste	39
		b) Bags of cooked/dried shrim waste ready to be dispatched to the milling plant	39
Plate 07	-	a) Some ingredients used in the formulation of shrimp feed in Sri Lanka - Top left is a sample powdered shrimp waste	40
		b) Chitin extracted at NARA laboratory using shrimp waste.	40
