

# **Ecosystem based Management of Nanthikadal Lagoon**

**National Aquatic Resources Research and Development Agency  
(NARA)  
Crow Island, Mattakkuliya,  
Colombo 15.**

**Date: 22<sup>nd</sup> June 2020**

# TABLE OF CONTENTS

---

List of Tables .....	III
List of Figures .....	IV
Acronyms .....	VII
EXECUTIVE SUMMARY .....	1
1. INTRODUCTION .....	3
1.1. Background .....	3
1.2. Objectives of the Study .....	3
1.3. Scope of the study .....	3
2. POTENTIAL PROJECT ACTIVITIES.....	4
2.1. Ecosystem based management without engineering solution.....	4
2.1.1. Stock enhancement .....	4
2.1.2. Pencil culture <i>Chanos chanos</i> (Milkfish) .....	5
2.1.3. Pond culture of freshwater prawn and saline Tilapia pond culture .....	5
2.2. Ecosystem based development with engineering solution.....	5
2.2.1. Opening of the lagoon mouth and cleaning of the lagoon.....	6
2.2.2. Stock enhancement .....	6
2.2.3. Cage culture of finfish/non- fin fish species .....	7
2.2.4. Co-culture of mud crab .....	7
2.3. Common development for both scenarios .....	8
2.3.1. Aqua tourism.....	8
2.3.2. Research and residential training facility.....	8
3. EXSISTING ENVIRONMENT.....	9
3.1. Physical Environment .....	9
3.1.1. Location of the lagoon / Geographical location.....	9
3.1.2. Bathymetry, topography and shore profile surveys .....	10
3.1.3. Land use .....	11
3.1.4. Hydrology .....	12
3.1.4.3. Surface drainage pattern of the area.....	14

3.1.5. General climate .....	16
3.1.6. Temperature .....	18
3.1.7. Ambient temperature .....	18
3.1.8. Geology.....	25
3.1.9. Water quality.....	28
3.2. Biological Environment.....	43
3.2.1. Biodiversity in the lagoon including untapped and ecologically important species (Corals, Mangroves and sea grass & Sea weeds) .....	43
3.2.2. Fisheries and aquaculture.....	53
3.3. Cultural and socio economic environment .....	65
3.3.1. Demographic characteristics.....	65
3.3.2. Historical and archeological data.....	67
3.3.3. Other social aspects.....	67
3.4. Applicable laws, regulations, policies and legal instruments .....	72
3.4.1. Applicable laws and regulations .....	72
3.4.2. Government policy and legal instruments .....	72
3.5. Compliance with the existing conservation and development plans .....	72
3.6. Issues and problems identified.....	73
4. ANTICIPATED IMPACTS DUE TO PROJECT ACTIVITIES AND MITIGATION MEASURES .....	74
4.1. Possible impacts on biological resources due to dredging.....	74
4.2. Possible impacts on commercially important species.....	75
4.3. Impacts on Lagoon deepening and sea mouth opening .....	75
4.4. Possible impacts to hydrological regime, sediment, nutrient loading .....	76
4.5. Possible human animal conflicts.....	76
4.6. Impacts associated with post dredging .....	76
5. CONCLUSIONS AND RCOMMENDATIONS.....	76
5.1. Conclusion .....	76
5.2. Recommendations.....	77
6. REFERENCES .....	79
