Executive Summary.....	i
General Introduction.....	1
1.1. Mannar district.....	1
1.2. Puttlam district.....	1
1.3. Main Objective	2
1.4. Specific Objectives	2
(A). Development of sustainable oyster culture management plan for Mannar District.....	3
2. Materials and Methods.....	3
2.1 Main activities carried out during the study period.....	3
3. Results.....	8
3.2. Study the breeding season of oysters	9
3.3 Water quality	11
3.4. Oyster spat falling	15
3.5. Growth study of oysters	22
3.6. Oyster Resource Survey and Stock Assessment in Mannar District.....	23
(B). Development of Sustainable Aquaculture Management Plan for Puttlam District	31
1.0. Introduction.....	31
1.1. Study Objectives	31
1.2. Activities carried out.....	31
1.3. Present status of the mud crab fishery in Puttlam lagoon	31
1.3.2.3.1. Gill net fishery	33
1.3.2.3.2. Hand picking method.....	34
1.3.2.3.3. Lift nets	35

1.3.2.3.4. Baited traps	35
2.0. Development of Breeding Techniques for Mud crab <i>Scylla serrata</i>	36
2.1. Broodstock Management	37
2. Crab Fishery Data Collection.....	40
3. Methodology	40
4.0. GIS mapping of operational and non-operational shrimp farms in NW province	41
4.1. Survey on Shrimps Farms	41
5.0. Conclusions and recommendations.....	43
5.1. Mannar oyster culture management plan	43
5.2. Aquaculture management plan for Puttlam district.....	43
